4) Building/Grounds

- None.

5) Union/Management

- None.

6) Policies/Procedures – Revisions - None

7) COVID-19 (Coronavirus)

- We continue to experience a significant surge in cases and hospitalizations due to the Delta and Omicron variants. Our 7-day case count has reach over 2,000 cases a day and our hospitals continue implement their surge plans, as they are experiencing above capacity levels of COVID-19 patients. Our area hospitals are continuing to see the bulk the hospitalizations that of unvaccinated patients, especially in the ICU were it remains at 95% unvaccinated.
- ODH recommended a modified isolation and quarantine procedure to mirror CDC's which was recently released. Although this procedure can be used by everyone, it is specifically important to the school districts, and we prepared a more explicit outline to provide assistance to our school districts. Since coming back from the holiday break, the schools have been seeing a large increase in COVID cases, which has become overwhelming to not only the schools, but our staff as well. To help the schools, we have offered the assistance of our CDC school liaison to assist with contact tracing. It is our overall goal to continue to work with the schools to keep them open, and have the students and staff in a safe environment.
- We have been notified that ODH will not be able to supply the amount of COVID test kits to the local health districts to meet the demand; therefore, schools K-12 and colleges who are in need of test kits will need to order them directly through ODH and not the local health districts. The schools have been notified of this change. Our health district placed an order at the beginning of the year for more test kits, but we do not know whether or not we will be receiving them.
- We continue to offer vaccine clinics multiple times each week for ages 5 and up. Our goal is to be able to offer vaccine clinics 5-days a week. To achieve this goal, we have been collaborating with the Warren City Health District to make sure that multiple clinics are being offered 5-days a week to help alleviate the load being placed on the hospitals and urgent care centers.

8) Accreditation

- A Gantt chart was created to estimate a timeline for all accreditation activities we plan to achieve in a calendar so that we can remain on track to achieve those goals. Our primary focus at the beginning of the year is our Quality Improvement Plan and Projects and working with our community partners on our CHA and CHIP, as well as our Access to Care addendum, with the 2nd half of the year focusing on our Workforce Development Plan & Projects.

- At the beginning of the year, our Live Well Trumbull wellness hub became live and operational, and many of our community partners have begun adding events to the upcoming events calendar. We are hoping to see more stakeholders come to the table and start to share their information and activities. If you wish to view our wellness hub, you can do so at www.LiveWellTrumbull.com

RE: Board Report (01/27/2022)

- **Accreditation:**
 - **Strategic Plan:**
 - Partially fulfilled priority 4 goal 1, objective 4.1 in seeking additional funding opportunities by way of grants to expand our home visitation program through help me grow, and the addition of our PHEP coordinator.
 - **Performance Management:**
 - The new TCCHD Performance Management System 2021 has been fully amended and fully adopted by the BOH, and has been archived into both digital and hard copies for staff to access.
 - **Re-Accreditation Modules:**
 - Continued work on the PHAB (Public Health Accreditation Board) Re-Accreditation modules to learn the new process for re-accreditation.
 - **Workforce Development:**
 - The PHwins Survey through the deBeaumont foundation is now closed and the TCCHD is awaiting the data from such. The TCCHD hit its intended target rate of 75% of staff engagement, which means agency level data, as well as regional, and national level data will now be available to the TCCHD for Workforce Development revision. Workforce Development revision is slated to begin in July of 2022.
 - **Quality Improvement:**
 - The user feedback and potential website improvement survey instrument has been added to the website to gather user input. (So far we have had 39 user feedback responses (53% increase) to the survey.) This action aligns with the PDCA approach outlined within our quality improvement plan. We are currently and actively still gathering user responses to present to both the QI committee and subcommittee. These results are slated to be presented to the QI Subcommittee in February and the QI committee in March.

- The QI committee has reconvened to prepare a new QI document, and revisit and fully finish the Sewer QI project which began in 2017. This work is scheduled to be completed by June of 2022.
 - A new overall customer service satisfaction survey instrument has been initially added to the entire TCCHD staff email signatures. This is the initial way we will promulgate the survey to customers for feedback.
- **Community Health Assessment/Community Health Improvement Plan**
 - Under the current Community Health Improvement Plan I have continued to meet with several identified agency leads on the initiatives outlined in the plan, and received numerous updates on the progress associated with those initiatives.
 - I am also currently working with CHA/CHIP Secondary Data subcommittee to identify all the necessary secondary data sources needed for the CHA/CHIP documents.
- **Covid -19 Mitigation**
 - Participated in the Eastwood Mall and On-Site Location afternoon and weekend Covid-19 vaccination clinics.
 - Coordinated several On-Site Covid-19 Vaccination Clinics with both the Nursing Director and Immunization Coordinator.
- **RS/SIT Endeavors**
 - Currently I am scheduled to shadow 2 fellow sanitarians to fulfill my 5 needed monthly SIT inspections required through ODH for licensure.
- **Policy Updates:**
 - ADM 1170 Branding Policy was amended to create further uniformity in several aspects of the TCCHD everyday operations.
