C. Notice of Appeal – Findings & Orders – 3062 Trumbull, Weathersfield Twp., Phillip Barrios, Owner – Mr. Barrios, Mr. Barrios’ father, Atty. Gilbert Rieger, Mr. Barrios’ attorney, and Kelly Clarke, Weathersfield Township Zoning, were present at the meeting. On October 17, 2022, a complaint was received from Weathersfield Township regarding dumping of construction & demolition debris on the property. An inspection was conducted on October 19, 2022, by inspector Rod Hedge, and a

notice of violation was issued on October 24, 2022, giving the owner 30 days to comply, and notifying him that a re-inspection would be conducted. A follow up inspection was conducted on December 13, 2022, Mr. Hedge reported little change in the condition of the property, and another notice of violation was issued. The owner was notified that if he did not comply with this notice of violation an administrative hearing would be held on February 16, 2023. On the date of the hearing, Mr. Barrios called in, and was given an additional 30 days to comply, and was informed if he did not comply within 30 days, findings & orders would be issued. Rod Hedge conducted a follow up inspection on March 16, 2023, and noted that the owner was still not in compliance. April 7, 2023, findings & orders were issued to Mr. Barrios to immediately cease and desist bringing additional material on the site, remove all solid waste and construction & demolition debris to a licensed facility, and submit receipts to the health district within 60 days. April 27, 2023, a letter was received from Atty. Gilbert L. Rieger to appeal on the basis that Mr. Barrios does not have any solid waste or construction & demolition debris on the property. Mr. Barrios, through his attorney, is asserting that the materials that he has on the property are being used to do hardscaping, and repairing and remodeling of the house on the property.

Atty. Rieger stated that it is his and his client's feeling that the complaint regarding Mr. Barrios' property is racially motivated, and that the material on the property is being used by Mr. Barrios for the repairing and remodeling being done on the house.

Kelly Clarke, Weathersfield Township Zoning, stated that several neighbors have complained regarding this property and that added that she had seen no effort to properly clean up the property by the owners. Also, Mr. Barrios did obtain construction and building permits, but not until he had been caught having not obtained permits. Mr. Hedge, health district inspector, stated that Weathersfield Zoning had been involved with this property much longer, but his involvement began in October of 2022. Once construction material sits too long, it becomes construction and demolition debris material.

Following additional discussion, Mr. Wilster stated that the findings & orders that were issued were not due until June 7, 2023; therefore, Mr. Barrios has until then to show progress. Mr. Wilster asked that the Board deny the appeal, and uphold and affirm the findings & orders that were issued, ordering Mr. Barrios to come into substantial compliance by June 7, 2023.

MOTION: 23-99 made by Mr. Dubos, second by Mr. Biery to deny the appeal and uphold the April 7, 2023, findings & orders issued to Mr. Philip Barrios, 3062 Trumbull, Weathersfield Township, which ordered that Mr. Barrios come into substantial compliance by June 7, 2023.

Roll Call Vote:

- Mr. Biery – Yes
- Mr. Borocz – Yes
- Mr. Dubos – Yes
- Dr. Firster – Yes
- Mr. Simon – Yes
- Mr. Messersmith – Yes

Motion carried.

D. Declaration of Unfit for Human Habitation – 87 K Trumbull Ct., Newton Falls, Timothy Rader, Owner – *This item was removed from the agenda.*

E. RESCISSION – Declaration of Unfit for Human Habitation – 2336 Wick Campbell Rd., Hubbard Twp., Jeffrey Solyan, Owner – At the March 22, 2017, Board of Health meeting, the Board voted to declare this structure unfit for human habitation. Since that time, a new owner obtained possession of the property and made several repairs to the structure. On April 19, 2023, Hubbard Township Zoning stated that they were presented evidence showing that the conditions that were present at the time of the health inspection had been corrected, and requested that the Board of Health rescind their declaration of unfit. A recent inspection by the health district concurred with Hubbard Township’s findings.

MOTION: 23-100 made by Dr. Firster, second by Mr. Simon, to rescind the March 22, 2017, Motion 17-45, declaration of unfit for 2336 Wick Campbell Rd., Hubbard Twp.

Trumbull County Board of Health

1) Budget/Financial

- Attached is the monthly financial report for April 2023. The general fund is at a positive cash balance of \$796,400.00, and our all fund balance is at \$3,462,746.75.

2) Credit Card

- Quarterly update on the credit status has not changed. We have one credit card account, and the cards associated with that account are set to expire on June 2023.
- For the credit card transactions, please see the list of bills.

3) Vehicles

- Attached is the cost analysis for the month of April for the vehicles. The overall cost savings with the vehicles, for the month of April was \$1,736.15, with YTD savings of a \$6,724.58.
- The estimated delivery date for the additional 2023 Ford Escape that was ordered from Montrose Ford, is now November.

4) Building/Grounds

- We did obtain quotes on estimated renovations that would be required should the health district move to the Cortland building, and those estimates were used to apply for the new COVID grant funding that was discussed at the April meeting.

5) Union/Management

- None

6) Policies/Procedures – Revisions

- None

7) COVID-19 (Coronavirus)

- As of 5/14/23, our current case count is at 25, at my last report it was at 68. Our case rate per 100,000 is currently 24.8/100,000.
- As you are aware, the federal government ended the COVID-19 public health emergency on May 11th. Some of the changes as a result are as follows:
 - The CDC will shift focus from case data and positivity rates to hospitalizations and deaths. As a result, there will no longer be the COVID-19 transmission levels and/or community levels.
 - Although COVID-19 will remain a public health “concern”, there will be targeted surveillance efforts focusing on hospital admission levels and COVID-19 associated deaths.
 - Free COVID-19 tests will no longer be available and testing by healthcare professionals may now have a co-pay. However, ODH still has an ample supply of test kits, as we do, and will continue to distribute them to LHDs while they last. We also purchased two analyzers with test cartridges to perform tests in our county, especially to those individuals without insurance.
 - Vaccines will remain free for now, as ODH has an ample supply of them. ODH has established a “Bridge Program” so that COVID-19 vaccines remain available and free until at least September 24th. Eventually, the vaccines will be commercialized, similar to the influenza vaccine.

8) Accreditation

- None

9) Other

- The Ohio Department of Health is requesting local health district to strengthen their influenza surveillance this summer to maintain appropriate situational awareness for any novel influenza strains by collaborating with physician's offices and hospitals to collect and send specimens to the state lab for testing. This increased surveillance will continue through September 30, 2023. This is important as we are nearing fair season where individuals will be near agricultural animals, and the potential risk for exposure to human infections of swine and/or avian influenza variants increases.

- On May 15th, the CDC issued a health update for the potential risk for new Mpox cases. There have been recent clusters of cases in the United States, and there is a concern that we may see a resurgence this spring and summer as we have mass gatherings. They are asking clinicians to be on alert and test for suspect cases and to vaccinate persons at risk.

Trumbull County Combined Health District
Nursing Department Board Report

Board of Health Report May 24, 2023 for April 2023

- As of May 1, 2023, TCCHD has distributed approximately 43,545 doses of COVID vaccine in Trumbull County and of those, 20,937 are first doses, 17,862 are second doses; 3,426 are monovalent first boosters; 532 are monovalent second boosters, and 788 are bivalent boosters (COVID-19 and Omicron). Nursing staff administered 23 COVID vaccines in April 2023. TCCHD received between five and ten reported COVID cases per a day for this BOH reporting period.
- The FDA amended the emergency use authorizations of the Moderna and Pfizer COVID-19 bivalent vaccines to simplify the vaccination schedule. Moderna and Pfizer's monovalent COVID-19 vaccines are no longer authorized. The current Moderna and Pfizer bivalent vaccines are now authorized to be used for all doses administered to individuals 6 months of age and older, including for an additional dose or doses for certain populations. The recommendations vary depending on the person's COVID vaccine history, medical history and age group. The following are some of the guidelines:
 - Any individual that was previously vaccinated with a monovalent vaccine should receive at least one dose of a bivalent vaccine.
 - Any individual that did not receive a monovalent vaccine should receive one or more bivalent vaccines depending on their age group.
 - Any individual that received a bivalent vaccine and is 65 years or older should receive a second bivalent vaccine spaced 4 months from the previous dose.
 - Any individual that received a bivalent vaccine and is immunocompromised should receive a second bivalent vaccine spaced 2 months from their previous dose and additional doses may be administered at the discretion of, and intervals determined, by their healthcare provider.

These changes are based on the data that most individuals five years and older have antibodies as a result of vaccination or infection against SARS-CoV-2. COVID-19 continues to be a very real risk for many people, and TCCHD encourages people to stay current with vaccination, including with a bivalent COVID-19 vaccine booster. Vaccines prevent the most serious outcomes of COVID-19, which are severe illness, hospitalization, and death.
- Attached is a copy of the overdose report, the Project DAWN report, the Influenza report and the Animal Bite report for April 2023.

RE: Board Report (5/24/2023)

- **Accreditation:**
 - **Strategic Plan:**
 - The strategic plan dashboards have been updated and placed within the common areas for all TCCHD employees to review. The transportation list has been sent to hChoices and as of this board report writing (5/17/23), the list has not been populated on the Livewell Trumbull HUB.
 - **Performance Management:**
 - The Performance Management quarterly objective dashboards have been updated for the 1st quarter of 2023, approved by the health commissioner, and posted to the common areas for all TCCHD employees to review.
 - **Re-Accreditation Modules:**
 - I have continued work on the PHAB (Public Health Accreditation Board) Re-Accreditation modules to learn the new process for re-accreditation.
 - The accreditation core group has finished work on Domains 1, 2, and 3 of the reaccreditation process. I have begun filling out the documentation forms for the all 3 domains, and Frank and I plan to hold domain documentation review meetings to look over the potential final documentation submissions and make any last minute amendments if necessary.
 - **Workforce Development:**
 - The accreditation core group met for the first workforce development meeting (5/8/2023), after the inaugural EIWLBC meeting on 3/23/2023. The accreditation core group was informed of the recommendations the EIWLBC made, and choose to introduce the following initiatives:
 - For work/life balance: TCCHD management has agreed to an open door policy for employee input with an emphasis on more tolerance for flex scheduling,
 - And for inclusion: Implement an electronic employee suggestion/input mechanism for employees to give feedback.

- **Quality Improvement:/**
 - The informal Sewer QI Mapping Project (ENV 1320) is now fully completed and awaits board approval.
- **Community Health Assessment/Community Health Improvement Plan**
 - The TCCHD has reached to all Warren/Trumbull CHIP stakeholders and planned a meeting with these individuals for 5/25/23. We plan to unveil our completed objectives to the stakeholders, and receive feedback from those stakeholders about additional “silent” objectives they may have worked on previously as well.
- **EHSIT/REHS Endeavors**
 - I have attended the OEHA spring conference, and taken the REHS test prep tract classes. The TCCHD has also received the latest edition of the REHS 5th generation study guide from NEHA, which I am currently using to study for the exam. This study guide belongs to the TCCHD, and can now be used by other EHSITs within the TCCHD to study for the REHS exam.
