Health Commissioner's Report – June 23, 2021 Board of Health Meeting

1) Budget/Financial

- Attached is the monthly financial report for May 2021. The general fund is at a positive cash balance of \$705,851.33, and our all fund balance at \$2,937,394.75. The large increase in the general fund cash balance is a combination of reimbursements from the grants and the receipt of tax monies.
- The audit for the 2019 & 2020 calendar years is ongoing. Because we received federal grant funding in 2020 totaling \$1,513,899.20, which was excess of \$750,000.00, it moved our audit from a 2-year audit to a single year audit. As soon as it is complete, and a report has been issued, I will share it with the Board.

2) Credit Card

- Quarterly update on the credit status has not changed.
- For the credit card transactions, please see the list of bills.

3) Vehicles

- Attached is the cost analysis for the month of May for the vehicles. The overall cost savings with the vehicles, for the month of May was \$93.86 with a year to date savings of \$217.93. The cost savings this month was less due to one of the vehicles needing new brakes and tires. The vehicles are nearing 4 years since their purchase, and are requiring additional maintenance.

4) Building/Grounds

- As you may all know, a couple weeks ago a contractor, who was installing fiber optic lines at the intersection of Chestnut Ave. and E. Market St., cut through several electrical lines. Due to this incident, Chestnut Ave., in front of our building has been closed. As they proceed with these repairs, they will be digging up the road directly in front of our building, which will make access to our agency almost impossible. Because we do not know when this will occur, we issued a notice to our staff, and to the public regarding the road closures, and that our building would be closed, but our agency would be open, and services would be maintained. We have encouraged the public to contact us via telephone or e-mail, and that should they need to come to our building to call prior so that we can explain how to gain access.

5) Union/Management - None

6) Policies/Procedures – Revisions - None

7) COVID-19 (Coronavirus)

- We continue to adjust our approach in our administration of the COVID-19 vaccine. We are continuing our partnership with the Eastwood Mall Complex, and will be holding vaccination clinics in the mall through August. We have been scheduling the clinics at various times of the day and week to adequately address residents' busy schedules, and these clinics have proven to be successful. We are also holding a clinic during one of the Mahoning Valley Scrappers games in an effort to make obtaining a vaccine more accessible.
- We are also increasing our efforts in many of the vaccine equity communities to improve uptake. As such, we are offering vaccines at festivals, parks and food service operations. We will continue this effort through the summer.

8) Accreditation

- We are moving forward with completion of our strategic plan, and will be collaborating on a large-scale workforce development survey to identify workforce needs. The survey involves many states and is being conducted by the Public Health Workforce Interests and Needs Survey (PH WINS). PH WINS is the first and only nationally representative source of data about the governmental public health workforce. It captures individual governmental public health workers' perspectives on key issues such as workforce engagement and morale, training needs, emerging concepts in public health, and collects data on the demographics of the workforce.
