COVID cases continue to climb, with over 760 cases for the last 7-day period, which is over 200 cases more than the prior 7-day period. There will be a press conference held tomorrow with our agency, the hospital systems, Warren City Health Department and Warren City Officials to report on the status of the county, and to remind residents of the preventative measures they can take to slow the spread of the COVID virus.

**MOTION: 21-217** made by Mr. Messersmith, second by Mr. Simon to accept the report of the Health Commissioner as presented.

Mr. Simon asked a question regarding the "No Parking" signs that Mr. Migliozi referenced in his report, and where those signs had been posted. The signs are posted on the fence near the ingress and egress to the parking lot. Clients have been parking there, making it difficult, not only for people to safely enter and exit the parking lot, but also for those attempting to back out of parking spaces.

Mr. Dubos asked if there was a specific age group that was showing a larger amount of COVID cases? Mr. Migliozi stated that he has asked the Epidemiologist to find that information, but he did not have it at the present time; however, it did appear that the overall trend was that the age was coming down. Statewide, it is affecting those under the age of 50, where a year ago it was affecting the elderly.

**1) Budget/Financial**

- Attached is the monthly financial report for August 2021. The general fund is at a positive cash balance of \$290,422.05, and our all fund balance is at \$2,938,541.81.
- The audit for the 2019 & 2020 calendar years has been completed, and there were no material findings issued. Attached is a copy of that report for your review.

**2) Credit Card**

- Quarterly update on the credit status has not changed.
- For the credit card transactions, please see the list of bills.

**3) Vehicles**

- Attached is the cost analysis for the month of August for the vehicles. The overall cost savings with the vehicles, for the month of August was a negative \$488.93, with a year to date savings of negative \$147.46. We had 2 vehicles that needed new tires, and 1 that needed new brakes during the month of August.
- We have ordered the Chevrolet Traverse, but it is not going to be delivered until November 7, 2021. In the meantime, we are not delaying and have reassigned the administrative vehicle to the employee in the environmental division.
- We have looked into paying off the leases on the current fleet of vehicles, and have found that the overall cost savings would only be approximately \$500.00. After discussion, it was decided that at this time of the year, since we are nearing the end of the calendar year, it would be difficult to move monies around in the funds to pay the vehicles off at this time.

**4) Building/Grounds**

- We again were having issues with people parking against the fence, making it difficult for people to enter our parking lot, and making it difficult for people to back out of the appropriate parking spots. We had "No Parking" signs again attached to the fence to try to deter people from parking there. We had no parking signs on the fence previously, but they either fell off or were taken by someone; this time, we had maintenance attach them more securely.

**5) Union/Management**

- We developed the job description for the Emergency Preparedness Coordinator, and are finalizing the side letter of agreement with the union regarding this position. As soon as the side letter of agreement is finalized with the union, we will be posting for this position.

**6) Policies/Procedures – Revisions - None**

**7) COVID-19 (Coronavirus)**

- We continue to have successful vaccine clinics at the Eastwood Mall, and we have decided to extend those clinics through the end of the year.
- Our internal planning team has been discussing the booster shots, and we will have a multi-faceted approach wherein we will hold booster vaccination clinics at the Eastwood Mall, with pre-registration through the state VMS scheduling system. For those individuals with mobility issues, we will offer clinics at our senior centers and three of our local fire departments have agreed to offer drive through clinics at their fire stations; so, we will be partnering with those departments to conduct those clinics.
- Trumbull County is seeing a high surge in COVID cases, especially with the opening of the schools. There has been close to 100 cases thus far, with several hundred individuals needing to be quarantined. At the last Board Meeting, I reported that the case count was 234 cases for the 7-day period. Currently, we are at 542 cases per day for the last 7-day period. The vast majority of these cases are individuals

who are unvaccinated. As a result, we have enhanced our contact tracing efforts, and have added an additional EPI Investigator, and extended the contracts of the other two EPI investigators. We have also reassigned duties in the nursing division to allow staff to assist our schools with the surge of cases they are seeing.

#### **8) Accreditation**

- As part of a quality improvement project (QI) our website has been overhauled and re-designed. This was needed due to difficulties navigating the site, obsolete information, dead links, and during the COVID-19 pandemic vaccination phase, users of the website for the vaccination registration process reported compatibility issues with our old website and certain mobile electronic devices. In addition, Trumbull County Data contacted us and informed us that more compatibility issues could arise from future upgrades the county would be implementing and the current format of our website. Trumbull County Data recommended a website upgrade to the current and similar modality utilized by the Trumbull County Auditor and other county agencies. We are still making some small corrections and additions, but the re-designed website went live on September 7<sup>th</sup>.
