Trumbull County Board of Health

1) Budget/Financial

- Attached is the monthly financial report for November 2021. The general fund is at a positive cash balance of \$789,762.38, and our all fund balance is at \$3,198,273.99.

2) Credit Card

- Quarterly update on the credit status has not changed.
- For the credit card transactions, please see the list of bills.

3) Vehicles

- Attached is the cost analysis for the month of November for the vehicles. The overall cost savings with the vehicles, for the month of November was -\$25.94, with a year to date savings of \$180.45. We again had another vehicle that needed new tires, which was a costly repair.

4) Building/Grounds

- The county maintenance department had a contractor at the building recently who was looking at the crumbling and bowed brick/concrete going down the outside basement stairwell. I will keep you apprised of the structural issue when I know more.

5) Union/Management

- Susan Coleman started November 22nd as our new Emergency Preparedness Coordinator.
- Jennifer Hudson started December 1st as our second Family Support Specialist.

6) Policies/Procedures – Revisions - None

7) COVID-19 (Coronavirus)

- Currently, we are experiencing a significant surge in cases and hospitalizations due to the Delta variant. Our case counts are now at the same level we experienced last December of 1,200 in a 7-day period, with the majority of individuals ages 21-44 years of age, where the vaccination rates are much lower. Our hospitals are above capacity with COVID cases, and they have had to implement surge plans and deal with staffing shortages. Although our hospitals have some patients with breakthrough cases, the vast majority of COVID patients are unvaccinated and over 95% in the ICU are unvaccinated. Thus, much of this surge could be prevented with vaccinations.
- We continue to work with our schools with case/contact tracing, as well as providing test kits for mask to stay/test to play. Also, we will be receiving two additional persons, provided by CDC, who will assist with school case/contact tracing, and an EPI to assist with disease surveillance and investigations, as well as data collection.
- In addition, we continue to provide vaccine clinics multiple times each week for ages 5 and up. We offer opportunities for 1st, 2nd and booster doses, and our mall clinic site remains well attended; therefore, we have extended our contract through the end of March 2022. We are also providing boosters at various other sites in the county such as at senior centers, apartment complexes, and we are working with Burghill/Vernon Fire to hold drive through clinics at fire departments and going to individual homes for shut-ins.

8) Accreditation

- We had a meeting with hChoices and community stakeholders on December 6th. The purpose was to inform them of our new wellness platform, and to request their participation. It was well received and we expect many of our partners to begin posting events and opportunities for our residents at the start of the new year. We will begin with a primary focus on opportunities for healthy eating and active lifestyles, and encourage business wellness programs.

• Usually in December, the Board of Health would be hearing the LaFarge License Renewal for the following year; however, a verified complaint was submitted to the OEPA, and as part of the verified complaint process, law requires the OEPA to conduct an investigation. Due to the complaint and the investigation, the OEPA is not prepared to address the issue of whether LaFarge is in substantial compliant; therefore, the OEPA is requesting that the no discussion or action regarding the 2022 LaFarge facility operating license be taken at this time.

Re: Lordstown Construction Recovery – Pending 2022 Operating License Application

Dear Board Members:

The Trumbull County Board of Health asked Ohio EPA whether we consider the Lordstown Construction Recovery, LLC Construction & Demolition Debris Facility (LCR) in substantial compliance for the purposes of issuing the 2022 operating license.

As you may know, we received a Verified Complaint pursuant to Ohio Revised Code (ORC) § 3745.08 on June 9, 2021 regarding the LCR. As part of the Verified Complaint process, ORC § 3745.08(B) requires the Director to conduct an investigation to determine whether a violation has occurred, is occurring, or will occur. In light of the ongoing verified complaint investigation, we are not prepared at this time to address the issue of whether the LCR is in substantial compliance. As such, at this time, we recommend tabling a decision on the 2022 LCR facility operating license.

Please note that if LCR timely applied for a 2022 license, LCR may continue to operate under the existing 2021 license until such time as the Board makes its decision on the pending 2022 license.

We will keep you updated on the status of our investigation and whether LCR is considered to be in substantial compliance. If you have questions in the meantime, please feel free to contact Jennifer Kurko, Assistant Chief, NEDO, at (330) 963-1253.

Sincerely,

Vladimir Cica
Chief, Division of Materials and Waste Management

RE: Board Report (12/15/2021)

-
- **Accreditation:**
 - **Strategic Plan:**
 - Priority 3, Goal 1, Objective 3.1, and 3.2 have entered into their initial phases. (Preventative Services linkages to Decrease County Wide Morbidity and Mortality). A meeting with Steve Pelton from hChoices (agent who oversees the hub) occurred on 12-6-21 with over 20 NGO's and Governmental agencies to introduce the wellness hub and garner both support and participation with the initiative.
 - **Performance Management:**
 - A rough Draft and final draft of the New Performance Management System has been completed and reviewed by Commissioner Migliozi. The New Performance Management Document may be ready for board approval and adoption on 12-15-2021.
 - **Re-Accreditation Modules:**
 - Continued work on the PHAB (Public Health Accreditation Board) Re-Accreditation modules to learn the new process for re-accreditation.
 - **Workforce Development:**
 - Due to low participation on a nationwide scale and noted apprehension to participate in completing the survey, the deBeaumont Foundation/PHwins has extended the deadline for the PHwins survey until mid-January of 2022. A new round of emails designated strictly to the intended participant will be sent out in December, and the TCCHD administration continues to strongly encourage its employees to engage in and complete the survey.
 - Mandatory all-day staff training was completed on 11-18-2021, with all employees (100%) of the TCCHD in attendance. All necessary topics were covered, and participants await the evaluation feedback survey which is still currently being formulated.

- **Quality Improvement:**
 - The user feedback and potential website improvement survey instrument has been added to the website to gather user input. (So far we have had 23 user feedback responses (50% increase) to the survey.) This action aligns with the PDCA approach outlined within our quality improvement plan. We currently and actively gathering user responses to present to both the QI committee and subcommittee once a statistical threshold (has not been met yet) of so many responses have been met or eclipsed.
- **Community Health Assessment/Community Health Improvement Plan**
 - Under the current Community Health Improvement Plan I have continued to meet with several identified agency leads on the initiatives outlined in the plan, and received numerous updates on the progress associated with those initiatives.
- **Covid -19 Mitigation**
 - Participated in the Eastwood Mall and On-Site Location afternoon and weekend Covid-19 vaccination clinics.
 - Coordinated several On-Site Covid-19 Vaccination Clinics with both the Nursing Director and Immunization Coordinator.
- **RS/SIT Endeavors**
 - Shadowed several environmental sanitarians during inspections in an ongoing effort to fulfill monthly SIT monthly evaluations, SIT licensure, and RS Exam requirements set forth by the Ohio Department of Health (ODH). These inspections included:
 - O&M Sampling and NOV Re-inspections.
 - Finished work on the O&M program which assisted the environmental division in sampling all listed and necessary properties.
- **PHAB Annual Report:**
 - Section 2 of the Annual PHAB Report has been tentatively completed and submitted to Commissioner Migliozzi for review and approval before submittal which is slated to occur on 12-9-2021.
